

HOW TO PLAY PING PONG

1. FIND YOURSELF A WORTHY OPPONENT

Search around for someone with similar capabilities as you who is ready for a game or two.

2. WHO GOES FIRST

You could rock-paper-scissors, flip a coin or rally the ball. Someone's gotta go first.

3. SERVE

Throw the ball lightly in the air with your free hand and hit it with your paddle onto your side of the table before theirs, making sure it only bounces once.

4. RETURN OF THE BALL

Return the ball to your opponent, making sure that it only bounces on their side once before it is returned back to you, visa-versa.

5. POINTS

Score 1 point if the ball bounces twice or more on your opponent's side, if your opponent volleys the ball back to you (not letting it bounce on their side) & if your opponent fails to land the ball on your half of the table

6. PUB PING PONG

We suggest that you play first to 11 points, this keeps games fun & fast paced

7. WINNERS

Play the best out of three games to determine a true winner. Loser buys the next round

8. PRACTICE MAKES PERFECT

You know where we are for a game or two.

9. FUN TIMES

Ping pong is a fun and social game designed to put a smile on your face. Play in singles or doubles and remember to have fun.
